Michigan Geographic Framework (MGMF) is a project of the Michigan Department of Transportation (MDOT). It is a collaborative effort between MDOT and the Michigan Geographic Information Institute (MGI). The MGMF is a digital representation of the geographic information of Michigan. It is used to provide a common geographic framework for all Michigan state agencies and the public. The MGMF is a dynamic system that is updated regularly. It is a valuable tool for planning, development, and decision-making. The MGMF is a public domain resource and is available for use by anyone. It is a testament to the power of collaboration and the importance of accurate geographic information.
