Michigan Geographic Framework (M-GF) is a project of the Michigan Department of Transportation (MDOT) and the Michigan State Office of Geographic Information Systems (M-SOGIS). It is a collaborative effort between MDOT and M-SOGIS to create a consistent and accurate geographic information system for the state of Michigan. The M-GF includes a variety of data products, including maps, data files, and web services. The M-GF is a valuable resource for a wide range of users, including government agencies, businesses, and the general public. For more information, please visit the M-GF website at www.michigan.gov/mgf.
